EARLY FALL GARMENTS

For Present Wear---At Our Famous Low Prices

If you want the best for your money you must come here—the majority of the public has learned this, that's why they come here—why we are far in the lead—doing so much more business than other stores. New advance styles are ready for present wear at our celebrated popular prices which mean dollars saved for you. Inspect the new things tomorrow.

Come and Get Acquainted with the New Fashions.

The New Suits, the New Dresses, the New Coats, the New Skirts are Ready

Take this as a sort of an official notice that we are now ready to show them in the fashions for fall, to show them in the breadth of their variety.

In other words, the time has now come when women may start assembling their wardrobes for fall.

Nothing to wait on, nothing to hold back for.

We've the suits, we've the street dresses of serge, of taffeta, of satin, we've the evening dresses, we've the coats, we've the separate skirts wanted to wear with the new sweaters; stripes and plaids to match the sweater colors.

Give us the privilege of showing all these new and lovely things that we are so enthusiastic about. For we are enthusiastic about them. We know what they are, how representative of the fashions. And we know women are going to enjoy them! We don't recall a season in late years when the styles were so wearable, the colorings and trimmings so charming and becoming. But here, we can tell the story of the new fashions in only a general way. Let us show them in a very particular way—one suit, dress, coat, skirt after another—just what is what!

Ready, indeed, very ready and confident!

SYRIANS BATTLE WITH HAWKINSVILLE OFFICERS

TWO KILLED AND NUMBER ARE WOUNDED IN AN ALL-NIGHT FIGHT WITH ALIENS.

Hawkinsville, Ga., Sept. 9.—In an all night battle between Syrians and Americans here two persons were killed and three others wounded, one of whom is believed to be in a dying condition. One Syrian escaped. A posse of forty men left here at 6 o'clock to look for him. The Syrian is heavily armed.

The trouble is said to have started over the drafting of a Syrian alien enemy, Thomas Simon, who is said to have relatives in the Turkish army. Simon's name was certified to the district exemption board because of lack of proof of his claims. He met one of the officials of the local board in a crowded drug store last night and is alleged to have struck the official.

Simon then ran to the Syrian store, kept by himself and his brother, Mose Simon. The two Syrians and the former's wife loaded Winchester rifles and revolvers in plain view of the street and prepared for a pitched battle, it is said.

Late in the evening the police attempted to arrest Thomas Simon for assault. Then the Syrians opened fire. Allen Dorch, popular young man about town, fell wounded in the lung. M. L. Bremby, postoffice clerk, was shot through the ear and John Hill, planter, was shot through the arm. In the return of shots the wife of Thomas Simon was killed. When her body was picked up in the street every cartridge in the revolver which she still held in her right hand, was empty.

The Simon brothers then barricaded themselves in a vault inside the store and defied the police. They are alleged to have opened fire on every one who approached. Several vehicles were struck, but no one else was injured.

Shortly after 4 o'clock this morning the crowd prepared to close in on the Syrians. The Syrians tried to escape through a rear door, shooting as they retired. Thomas Simon was shot and killed in his flight.

An appeal was made for troops from Camp Harris during the night, but information was obtained that the officers there had no authority to send the soldiers here.

Thomas Simon came here recently from Oklahoma. It is declared by the police here that he was affiliated with the I. W. W. in the West.

At midnight the posse had found no trace of Mose Simon. Other cities are on the lookout.

VALDOSTA EXPERIMENTS PROVE VERY SUCCESSFUL

SEA ISLAND CROP CAN BE SAVED IF EARLY VARIETIES ARE USED.

Atlanta, Sept. 11.—The results attained in the growing of sea island cotton at the experiment station at Valdosta, conducted by the Georgia state board of entomology, have proven, if anything, better than anticipated, in spite of the activities of the boll weevil.

The station had the boll weevil situation absolutely under control until the pest came in from neighboring fields. By that time the station had succeeded in making a good crop, although experimenting with as many as twenty-four varieties on the station grounds. Some of these varieties yielded at the rate of a bale to the acre, while on other plots of one acre each there has been picked already 900 pounds of lint, with several hundred pounds more remaining yet to open.

As the result of the experiments conducted at the Valdosta station, the state board of entomology is thoroughly convinced that by growing the early varieties propagated by the department there, the sea island crop can be saved. It has likewise been demonstrated that the ordinary varieties cannot be planted under boll weevil conditions.

The boll weevil is now found in every county in Southeast Georgia, where sea island cotton is grown. The farmers who have planted it this season have had widely varying success. Where they made no fight against the intruders of the weevil they

FORM NEGRO TROOPS IN SEPARATE UNITS

WILL BE TRAINED IN STATES WHERE RAISED, IS THE ORDER FROM WASHINGTON.

Washington, Sept. 10.—The negro troops of the national army will be organized in separate units as far as possible, will be trained in the states where they are raised.

The call for negroes to mobilize at their camps will be postponed to allow the officers at the camps to arrange for the organization of these separate units. Both white men and negroes of the selective draft forces will be given an opportunity to volunteer for service in the battalions of troops for service on the lines of communication, their work being military, but not combatant. However, there will be negro fighting regiments of the national army as there are of the regulars and the national guard.

Secretary Baker outlined this policy of the war department today in a statement dealing with the method to be followed in the organization and training of negroes liable to draft as separate units.

Presumably the negro regiments of a regular army and the national guard will be retained as they are as fighting units. The statement follows: "The rule of the regular army governing the training and organization of colored troops will be followed in the national army and they will be assembled and trained as separate organizations."

"The call for the colored men to mobilize will be postponed until one of the later calls, so that they will be called to camp at a separate time, giving an opportunity for the officers at the camp to assemble the organization of which they are a part at one time. They will not be called last, although they will be included in one of the later calls."

"All colored troops called in a state which has a cantonment in it will be trained there. Provisions will be made, but has not yet been made, for the assembling from those states which have no cantonments of their quotas of colored soldiers for training."

"Opportunity will be given to both the white and colored troops in the selective draft forces to volunteer in certain line of communication forces which it will be necessary to organize and it is hoped that an adequate number will volunteer for this military, but non-combatant service. But there will be both combatant and non-combatant colored regiments."

It is obvious that if the German people ultimately come to accept a part of the territory as inevitable they must pass to that frame of mind through the intermediate stage of a willingness to accept a status quo peace. If the war continues to go against Germany, test offers to conclude such peace will certainly be made as soon as the pressure reaches a certain point.

"Since Germany's so-called peace offer a year ago, the continued pressure of the entente and the entry of the United States have completely changed the situation. The question is now, in fact, not what are the war aims which Germany will impose before she grants peace, but what terms she, herself, will be willing to accept. That is a very simple statement of the greatest fact in the war situation today."

"The entry of the United States and many of the South American republics has put economic matters into the foreground. The German government must obviously view with extreme apprehension the situation at home in the months immediately succeeding the declaration of peace. The physical exhaustion of the people and of the country, combined with the want of food, which cannot be immediately remedied, and the want of raw material for starting manufactures, will create a most serious situation."

TRADING WITH THE ENEMY ACT PASSED BY SENATE

Washington, Sept. 12.—The senate late today without a record vote passed the trading with the enemy act to prohibit and punish trading with Germany or any of her allies. An amendment by Senator King, providing that foreign language newspapers, printing criticisms of the president, the government or the war must print an English translation in a parallel column was adopted.

Washington, Sept. 12.—Pleasant A. Stovall, the American minister to Switzerland, at the desire of his government, will shortly leave Bern for a brief visit to Washington, purpose of the minister's trip to discuss various matters including probable shipments to Switzerland and other neutral countries.

MR. STOVALL COMING HOME.

Berne, Switzerland, Sept. 12.—Pleasant A. Stovall, the American minister to Switzerland, at the desire of his government, will shortly leave Bern for a brief visit to Washington, purpose of the minister's trip to discuss various matters including probable shipments to Switzerland and other neutral countries.

The three main points, it is said, which the Attorney-General will cite in declining overture for a truce are these: The country is at war and Watson's utterances have been little short of treason; that to let him off now and not prosecute him for what he has already done would be to

PACKING PLANT TO BEGIN WORK OCT. 15

SUPERINTENDENT WILL TAKE CHARGE NEXT MONDAY AND PREPARE FOR OPERATIONS.

The Bulloch County Packing Company will begin active operations October 15th. This is the announcement of the board of directors authorized to be made public.

That is, on the 15th of October the slaughtering of hogs will be commenced in earnest. Actual work of preparing for that event will begin next Monday, when the new superintendent, Mr. Buhrmaster, will arrive and take charge. He will begin to organize his working forces and put everything about the plant in readiness. It is expected that the wheels will begin to turn the coming week, and that the plant will be ready for the hogs even before the date set for the opening. In the meantime, the farmers of the county are requested to get in readiness to help the work along from the very beginning.

Hogs will be an absolute necessity, and it is urged that those who can get them ready for the opening date, so that work may be conducted to a profitable degree even from the beginning.

Mr. Buhrmaster, the superintendent, comes to the local plant from Moultrie, where he has been superintendent for the past two years. Before that he was superintendent of a plant at East St. Louis, Ill., for eleven years. He has been engaged in the packing business for the past twenty years, and understands the work of the local plant very well.

Now that the plant is about to begin work, it is of greatest importance that those who are interested in it—every citizen of Bulloch county—be made aware of its importance to the county and the state.

The action created a sensation, particularly among the neutral diplomats, Baron Akerheim, the Swedish charge, in the absence of advice from his government, would not comment further than to say it was improbable that the Swedish minister at Buenos Aires knew of the contents of the dispatches. Axel Nordvall, of the special Swedish economic mission, declared he was certain that Baron Lowen, the Swedish minister to Argentina, had no knowledge of the contents of the dispatches.

"Moreover, I am sure," said Mr. Nordvall, "that no Swede would have been a party to such a heinous proceeding. I know Baron Lowen very well. He is not in good health, and it is possible that he was unaware of the sending of any message. If the dispatches were in German code, as I assume they were, even if he knew they were sent, he could not have known their contents and may have thought they were harmless business messages."

Mr. Nordvall was of the opinion that Baron Lowen would be recalled by the Swedish government and said he looked for an explanation and a disavowal of any intention to commit an unneutral act.

On Argentina's relation with Germany could not be guessed at both by state department officials and Ambassador Naon. The ambassador already has transmitted messages to his government and until instructions are received he will not comment on the incident nor speculate regarding the action that his government may take.

That he was accompanied at the revelation was evident.

It was suggested by some diplomats that Germany might have little difficulty in arranging her relations with Argentina so as to cause the South American country to maintain her neutral attitude. It was pointed out that having entered into an agreement with Argentina recently not to sink any more Argentine ships and to pay for damage already inflicted, Germany was in a position to explain that he had not accepted the suggestion of her agent in Buenos Aires, and that after all there could be no diplomatic conflict if he were removed.

That Argentina at least will demand the removal of the offending German was assumed both at the state department and by diplomats.

ONLY WHITE BOYS IN THE NEXT QUOTA

BOARD NOTIFIED TO HAVE ANOTHER QUOTA READY TO GO WEDNESDAY.

The local exemption board of Bulloch county has been formally notified to have another quota of soldiers ready to leave on the 15th of September—next Wednesday. This quota will consist entirely of white boys, which exhausts the number of white soldiers from this county. Indeed, it is regarded as doubtful if the full quota of 40 per cent can be made up of whites who are subject to go in the first call. In that event, a "less percent will be sent."

In preparation for a royal send-off for the soldier boys, a big event is scheduled for next Tuesday evening on the court house square, at which every man subject to go from this county under the first draft of 209

will be invited to be present. A fund has been raised to provide for a barbecue for the men drawn and found subject, and all will be given a hearty invitation to be present, both white and black.

Besides the festival features, a brass band will be provided and a program of patriotic address delivered. It is not expected to make it an occasion of mourning. Rather, it is stated that only words of cheer and encouragement will be tolerated.

Hon. Henry M. Jones is in charge of the arrangements for the occasion and is receiving the hearty support of Statesboro's leading business men. Tuesday evening will be made an occasion of festivity. While supper will be prepared exclusively for the drafted men on this occasion, their friends from throughout the county will be expected to manifest their interest in their welfare by their presence.

SLATER IS EXPECTED TO OPPOSE OVERSTREET

Savannah, Ga., Sept. 12.—The campaign of W. F. Slater, of Eldora, Bryn Mawr, Pa., for congress, in opposition to Hon. J. W. Overstreet, seems to be taking shape. Mr. Dawson Wylie, one of the representatives in the Georgia legislature from Chatham county, announces that he will start a movement in Chatham to organize Mr. Slater's friends. It is expected the meeting will be called in a few days.

Mr. Slater is a frequent visitor to Savannah, and has been seen by a number of representative men here who have shown great interest in his race. He has not yet formally announced, but his friends generally understand he is a candidate.

SOLD 20,000 MORE AUTO TAGS THAN IN 1916

Atlanta, Sept. 7.—What better evidence of an abounding prosperity could be offered than the fact that 20,000 more automobile license tags have been sold in Georgia up to the present date than were sold in the same period last year?

Georgia's tags are issued annually and run with the calendar, from January 1 to December 31. Up to the present time last year the secretary of state had sold 48,035 license tags. Up to the present date in 1917 he has sold 68,097, and the applications keep rolling in.

Phil Cook, secretary of state, estimated that the state would need about 65,000 tags this year. Already more than that number have been sold, and the end is not in sight.

SAFE REMEDY FOR CHILDREN.

Chas. Baker, Brownsville, Tex., writes: "For several years I have used Foley's Honey and Tar and found it especially efficient for bad coughs of my children. I recommend it to my friends as a safe remedy for children as it contains no opiates. It is certain to bring quick relief and lasting relief." Stops coughs. Sold by Bulloch Drug Co.

and it was pointed out that Germany probably would grasp at such an opportunity to close an incident which would not be easily added to the list of her list of enemies.

Argentina's evident desire in past months not to enter the war or even to break relations with Germany, has caused the belief here that she will look with certain favor upon any practicable way out of the new difficulty.

BANK OF STATESBORO
Statesboro, Ga.GOOD SALARIES PAID
TO RED CROSS MEN

CONCISE STATEMENT OF HOW MANY WORKERS ARE ON ROLL OF NATIONAL ORGANIZATION.

Washington, Sept. 8.—Henry P. Davidson, chairman of the Red Cross War Council, authorizes the following:

It is the plan of the War Council of the Red Cross to publish monthly a statement concerning its finance and administration and every detail which may be found to be of interest to the public will be made known. The following facts concerning salaries paid by the Red Cross may prove of interest to the public:

One year ago, on a peace basis, with only 200 chapters and a little over 200,000 members, with annual funds of only a few hundred thousand dollars, the Red Cross employed at its headquarters in Washington 75 paid officers and employees, of whom 29 received salaries of from \$2,000 to \$7,500.

At the present time, with the Red Cross on a war footing, with 2,600 chapters to administer, 3,621,011 members and a war fund of \$100,000,000 pledged, Red Cross National Headquarters employs 624 paid officers and employees, of whom 46 are paid salaries of \$2,000 a year or more.

In other words, since war was declared, 559 paid officers and employees have been added to Red Cross Headquarters staff, and of that number 17 receive salaries of from \$2,000 to \$6,000 a year. The highest salary added since war was declared is \$6,000. The highest paid official in the National organization received \$7,500, and he was on the staff on a peace basis.

Of those receiving less than \$2,000 a year, 49 now receive salaries of over a hundred dollars a month. There are 88 clerks being paid one hundred dollars, while clerks and messengers receiving less than \$1,000 number 491.

In addition to paid officers and employees in National Headquarters, the number of full-time volunteers now contributing their services to the Red Cross is 77. Practically all the important administrative positions created since war was declared are filled by volunteers.

During the last month, although the number Red Cross members has increased from 2,647,412 to 3,621,011, and the administrative work at National Headquarters has increased substantially, the number of paid employees has decreased from 707 to 624. This is partly to be accounted for by the decentralization of the work among thirteen territorial divisions under a new plan of organization adopted by the War Council.

TRUE HEROISM.

Let others write of battles fought, Of bloody, glistening fields, Where honor greets the man who wins And death the man who yields; But I will write of him who fights And vanquishes his sins, Who struggles on through weary years Against himself—and wins. He is the hero staunch and brave, Who fights an unseen foe, And puts at last beneath his feet His passions base and low; Who stands erect in manhood's might, Undaunted, undiminished— The bravest man who e'er drew sword In form or in raid.

It calls for something more than brain Or muscle to overcome An enemy that marches not With banner, plume or drum— A foe forever lurking night, With silent, steady tread; Forever near your board by day, At night beside your bed. All honor, then, to that brave heart, Though rich or poor he be, Who struggles with his baser part— Who conquers and is free! Or falls a hero's grave; Yet truth will place his name amongst The bravest of the brave. —Selected.

BROOKLET BRIEFS.

Mrs. Fronie Mock, of Savannah, is visiting friends in Brooklet this week. Mrs. W. J. Leslie, of Shellman, is the guest of her daughter, Mrs. J. P. Bobo.

Mrs. J. M. Pope, of Macon, is spending a few days with relatives here.

Friends of Mr. and Mrs. J. N. Shearouse are glad to learn of the improvement of their little daughter, Lula, who has been in the hospital for several weeks.

The Red Cross meeting was held in the auditorium last Friday evening at 7:30 o'clock. Dr. A. J. Moore, of Statesboro, gave an interesting and instructive talk on the history and organization of a Red Cross chapter. The next meeting will be held in the auditorium next Friday evening, Sept. 14, at 7:30.

The enrollment of the Brooklet school is still increasing in number. We have prospects of the best school in the history of the school.

Miss Sequel Lee is visiting Miss Lois Horton at Hubert. Mrs. Robert Edwards and son are spending several days with Mrs. H. M. Geiger.

Miss Verna McElveen will leave next week for Milledgeville, where she will attend the Georgia Normal and Industrial College.

THIS NEW MODEL BUICK
MADE WONDERFUL RECORDON TRIP ATLANTA TO TAMPA
AVERAGES 18 MILES TO GAL-
LON OF GASOLINE.

On a recent trip from Atlanta, Ga., to Tampa, Fla., a new model E-Six 45 Buick averaged 18 miles to the gallon of gasoline.

The trip covered 572 miles over every variety of road—some good, some bad, and some worse. This new car, with all of the stiffness common with any new machine, performed wonderfully. Not only does the high mileage against the low gasoline consumption speak volumes for this Buick car, but the more remarkable is the fact that every mile of the 572 miles, so far as the roads outside of such towns as stops were made, was negotiated with high gear.

Joe B. Johnson, the pioneer Buick dealer of Florida, handling Buicks at Tampa exclusively for the past nine or ten years, was at the wheel of this particular five-passenger Buick touring car, and in his letter on the subject he says:

"I will take this opportunity to advise you of my trip home in the E-Six-45. The first night out from Atlanta, I stopped in Tifton, and the speedometer registered 203 miles. I spent most of the next day visiting in Valdosta, and the next day made it home, traveling a distance of 269 miles—and I accomplished what I do not believe was ever obtained before with any other car; that is, I made the entire trip from the Buick branch to my shop on high gear, and I encountered none of all kinds of roads."

Mr. Johnson, in his letter, also states he had no occasion for even the slightest mechanical adjustment, and that he believes that the new models surpass anything that Buick has ever done before—that it means the Buick Motor Company are today producing the best performing motor cars in the country.

Buick demand keeps the great Buick factories working to their utmost capacity, every man and every machine is called on daily for the maximum product, and still many dealers are unable to supply the needs of their customers. However, the traffic organization of this great com-

cern is bending every effort, at all times, to keep the automobiles moving via freight to the thousands of dealers scattered in every important town and city in the United States.

Nine models comprise the nineteen eighteen line, and there is a car for every need and for every taste; three models in four cylinder jobs, and six models with sixty horse power motors. Of course all motors are Buick Valves-in-head type,—the very foundation of Buick success, for it is the spring from which flows the incomparable power and dependability of every Buick car.

HIGH PRICES AND SICKNESS. Nobody can afford to be sick with the cost of living at the present high mark. It is cheap to buy and more sensible to prevent sickness than to pay a doctor bill.

IS IT WORTH WHILE?

Is it worth while that we jostle a brother,
Bearing his load on the rough road of life?
Is it worth while that we jeer at each other
In blackness of heart? that we war to the knife?
God pity us all in our pitiful strife.

God pity us all as we jostle each other;
God pardon us all for the triumphs we feel,
When a fellow goes down 'neath his load on the heather,
Pierced to the heart, words are keener than steel,
And mightier far for woe or for weal.

—Joachim Miller.

UNWILLING TO PAY THE PRICE.

The fatal shooting at Hawkinsville last Saturday night, growing out of resistance to the draft law, is deplorable, yet it is not to be wondered at. With the amount of agitation that has been permitted against the law, it is surprising enough that there has not been more of this sort of thing growing out of it. When men of our own nationality, born and reared under the protection of our flag, with the principles of loyalty instilled into them from infancy, forget themselves so far as to attempt to disregard their duties of citizenship, what wonder that an alien without these instincts and environments should rise up in his mischievousness of liberty against the government?

The Syrians who openly revolted against their adopted country and met death in so doing, will receive scant sympathy. In them we recognize that type of individual who comes among us solely for the benefits which he may reap from our form of government. He would enjoy the fruits of liberty which have been bought and paid for in blood by the heroes of the past, and when occasion arises for him to pay in a measure, he turns his back upon the flag.

These were Syrians who openly rebelled. Yet how much better are the examples of our own people who stand in the way of their nation in its hour of peril? We cannot wonder at the Simonese—venturers who have come from afar and made their home among us when the weather was fair, only to turn upon us when clouds come—when men of our own tongue and our own blood openly counsel such acts of sedition. It is the natural thing to expect from the unlearned, when the learned are teaching it.

GIVING THE ROAD.

In the city court yesterday there was tried a case in which was involved several points of interest pertaining to the relative rights of vehicles on the highway.

A negro driving an automobile had run into a buggy in which two white persons were riding and had done considerable damage, besides badly frightening the persons injured. A jury convicted the driver of the automobile and he was sentenced to pay a fine of \$50.

The case is not an unusual one, for the like of it is to be frequently seen upon the highway. It arose from a lack of appreciation of the rights of others upon the highway, which is the cause of most of the road troubles. Failure to give half the road to the horse drawn vehicle that the animal became frightened and backed into the car. It was too late to stop, and the damage was done.

Few people are aware fully of the rights of vehicles of all kinds upon the highways. No vehicle is expected to give the entire road to another, but every vehicle of whatever kind is required by law to give half the road.

It is commonly seen by those who drive the roads that persons whom they meet or overtake are contentious about giving passage way. There are men who make it a practice, when being overtaken by an automobile, to persist in being in the middle of the road. Every automobile driver has seen this class of citizen. The law makes it the duty of such people to give half the road and permit the approaching machine to pass if so desired. No man, whether driving a buggy or a car, has the legal or moral right to stay in the middle of the road when another desires to pass. A proper regard for this right will often avoid trouble.

BUSINESS BOOMING.

Yes, the old prosperity wave is on again. Though cotton prices have experienced a slight decline, it is still selling at a fair price, and everybody is selling it.

While everybody is selling cotton, everybody who is anybody is paying their debts. Those who haven't already done so, are going to as soon as they get around to them. Our friends are all in the game of debt-paying. Since the first of the present month, the following subscribers have either subscribed or renewed:

Some facts you should know about shoes

There has been a great change in the manufacture of footwear the last two seasons. Leather has been high and scarce and more and more shoes are being made with substitutes for leather in the heels, counters and insoles.

Nowadays, when you buy shoes only from "outside appearance" you're apt to be disappointed in their wear quite frequently. The right way to buy them is by their reputation.

That's why we are so enthusiastic about "Star Brand" shoes. They are made as shoes should be—all good leather from heel to toe—no "paper" or any other substitute for leather in any part of them. They are made for men, women, boys and girls—a shoe for every member of the family—all grades, styles and prices—dress, medium weight and work shoes.

You'll be sure to like "Star Brand" all-leather shoes, not only for their splendid wearing quality, but also for their style, fit and comfort.

Come to our store and let us fit you with what we believe to be the world's best shoes.

BULLOCH MEN CAUGHT IN MESHES OF LAW

FALL INTO A TRAP SET FOR SAVANNAH VIOLATORS OF THE PROHIBITION LAW.

D. E. and C. W. DeLoach, Luther McElveen and Walter Howard, of the Nevada community, are visitors to the vicinity of the Florida line again this week. The word "again" is used advisedly, because this is the second trip in the direction of Jacksonville within a few days.

On Monday of last week these gentlemen formed a party who motorized to the Florida metropolis in a new Doot car belonging to Mr. C. W. DeLoach. Their troubles were slight if any on the trip southward, but were heavy enough on the return, according to their statement made here Monday. In fact, their troubles had not entirely ended at the time they were talking to their friends here, and the question that worried them was, "When will they end?"

It so happened that the Bulloch party were coming from Jacksonville at about the same time a Savannah automobile party were returning. It had been learned by the sheriff of Camden county that the Savannah automobile was bearing wet goods, and he had formed a posse to lay in wait. While this waiting, the Bulloch party drove up and were halted. It so happened that they had landed in a small assortment for personal use, only a few quarts each, but that was enough to get them in bad. While the party were being detained, the chauffeur of the DeLoach car started to move his car out of the way of the other arrivals, when the sheriff's deputy, a minister pressed in for the occasion mistook the movement for an attempt to escape, and he proceeded to flatten the tires with a load of buckshot.

The Bulloch county men were placed under bonds of \$200 each for their appearance and were sent home without their car. It was to answer to those bonds and recover their car if possible that they returned Tuesday to the South Georgia county.

People Speak Well of Chamberlain's Tablets.
"I have been selling Chamberlain's Tablets for about two years and have heard such good reports from my customers that I concluded to give them a trial myself, and can say that I do not believe there is another preparation of the kind equal to them," writes G. A. McBride, Headford, Ont. If you are troubled with indigestion or constipation give them a trial. They will do you good.

MAGAZINES WANTED.
On next Tuesday, the 18th, the town will be thoroughly canvassed for the purpose of collecting books and magazines, which are to be sent to Camp Gordon. We are in hopes that everybody will collect all their magazines and have them ready. Though your contribution will be of very little trouble and expense, yet it will be greatly appreciated by the boys. So let's everybody help in sending our boys something to read.

SCHOOL ATTENDANCE IS INCREASING AT RAPID RATE
The enrollment at the Statesboro Institute is now at high water mark and is daily increasing.
So rapid has been the growth in attendance that it has been necessary to almost completely re-organize the school since the opening, and three new teachers have been added to the faculty.
The enrollment at present is 534, and the faculty comprises eighteen, as follows:
R. M. Monts, (superintendent), mathematics.
A. A. Waters, science and mathematics.
Miss Mary Lou Carmichael, history and civics.
Miss Ethel Bonner, Latin and French.
Mrs. D. L. Deal, English and geography.
Miss Annie Lane, seventh grade A.
Miss Clyde Griffin, seventh grade B.
Miss Sallie Zetterover, sixth grade.
Miss Inez Trapp, fifth grade.
Miss Ruth Dabney, fifth and sixth grades supply.
Miss Ruth Proctor, fourth grade.
Miss Annie Hughes, third grade.
Miss Annie Beasley, third and fourth grades supply.
Miss Louise Hughes, second grade.
Miss Mattie Lively, first grade.
Miss Sallie Beasley, first and second grades supply.
Miss Mary Lee Jones, expression.
Miss Ouida Brannen, music.
The continual growth of the school makes more and more apparent the need for improved facilities. A new high school building is a pressing need, and will come during the next year—possibly.

Prices reduced on everything at M. Seligman's.

BIG STALK OF CANE.
Mr. Jason Riggs, of route 4, presented to this office during the week the largest stalk of sugar cane ever seen. It measured even six feet, and was made almost the entire length. Mr. Riggs expects to have syrup to sell at an early date.

See me for your cabbage plants. Will be ready to supply you within a couple of weeks. J. B. ILER.

DENMARK TO BE WITH BULLOCH PACKING PLANT
T. J. Denmark, since the first of the present year a member of the state bank examiner's force, has resigned that position, effective the first of October, and at that time will assume a position with the Bulloch Packing Company at this place. Mr. Denmark is an expert accountant, and his connection with the newly-organized concern will be pleasing to his many friends throughout this territory.

Cabbage plants will be ready for delivery within a couple of weeks. J. B. ILER.

HARDEST WORKED NEED HELP FIRST.
Through all the years the hardships are at work altering out, impurities that poison the blood if permitted to remain. Is it any wonder that they are overworked and in need of help? Foley Kidney Pills are tonic and strengthening in action. Get rid of backache, rheumatism, pains, stiff joints and sore muscles. Sold by Bulloch Drug Co.

MAN SENTENCED TO HANG

RECEIVED SMALL COMFORT

JUDGE EXPRESSED DELIGHT IN STEAD OF SORROW IN PASSING SENTENCE.

Sante Fe, N. M., Sept. 10.—The usual sympathetic words in sentencing a man to be hanged for murder were absent when Judge Kirby Bennett pronounced judgment on Jose Maria Martin recently.

Martin was convicted of a brutal murder with few, if any, mitigating circumstances, as a result of a quarrel over fifty cents.

"Jose Maria Martin, it is usually a painful duty for the judge of a court of justice to pronounce upon a human being the sentence of death," said Judge Bennett, in condemning the convicted murderer to the noose. "Happily, however, in your case, I am relieved of my unpleasant

feelings, and take considerable delight in sentencing you to death.

He continued in the custody of the sheriff in the county jail until the day of execution, when you will be taken to some convenient spot within the county, and that you there be hanged by the neck until you are dead, dead, dead, and the court was about to add, Jose Maria Martin, 'May God have mercy on your soul,' but the court will not assume the responsibility of asking an all wise Providence to do that which a jury of your peers has refused to do. The Lord could not have mercy on your soul.

However, if you affect any religious belief, it might be well for you to send for a spiritual adviser and get from him, well, such consolation as you can."

Doan's Regulets are recommended by many who say they operate easily, without griping and without bad effects. 50c at all drug stores.

Don't Poison Your Child With that Sickening Calomel.

It is almost a crime to dose children with calomel—this nauseating, poisonous mineral that some folks still think is the one thing that will relieve constipation, headache and other bilious conditions. I wouldn't give calomel to a dog unless I wanted to kill it.

When you need liver or stomach medicine, use a safe, guaranteed, vegetable preparation like Martin's Liver Medicine. It tastes good. It acts powerfully on the liver and bowels without pain or griping. And it often saves one from a spell of sickness.

"One of the best medicines in the world," says C. H. Miller, on the 12th of May he wrote the following letter to the proprietor of Martin's Liver Medicine:

"I have five children in school and all of them showed decided signs of being very sluggish. I gave each of them a dose of Martin's Liver Medicine night and morning for two days. Their complexions cleared up and they are now as bright as ever in every respect. The medicine did not interfere with their school work. Sold by Franklin Drug Co., Statesboro, Ga. and Farmers Drug Co., Port, Ga.

AMERICAN BOYS CHEER THE FRENCH PRESIDENT

WEARING FRENCH HELMETS AND APPEARING GRIM AND WARLIKE SAMMIES PASS BEFORE POINCARÉ.

American Training Camp in France, Sept. 6.—(Delayed by the Associated Press).—Wearing the British trench helmets and looking very grim and warlike, the American troops passed in review before President Poincaré, of the French republic today. They were massed in great hollow squares and marching quickly to spirited American music, presented a spectacle of unusual martial splendor. President Poincaré, addressing the troops later, said that he had witnessed their demonstration with great emotion and felt that events were ever bringing the French and American people closer and closer together.

The French president, accompanied by Paul Painlevé, minister of war, and marines; General Petain and several other French Generals, were met at the American field headquarters by General Pershing and General Sibet. Today was the anniversary of the birth of Lafayette and the battle of the Marne, and President Poincaré said that he had specially selected the date to pay his first visit to the American troops. He inspected several American barracks and billeting quarters in French villages and then left to visit some historic spots on the Meuse battlefield.

The French president's reception was marked by democratic simplicity. He was dressed in his familiar blue knickerbocker suit with leather leggings, and wore a simple blue yachting cap. The review was held on the top of a plateau in the American training area and when President Poincaré and his party arrived early this morning, the troops were drawn up at attention in regimental squares. Bands stationed here and there about the reviewing field launched into the strains of the Marseillaise as the president's automobile approached over the crest of the steep hill it had quickly ascended. The review proceeded immediately. President Poincaré saluted the American and regimental flags as they passed. Afterward while the men stood at ease, all of the officers of the expeditionary force were detached and assembled in a semi-circle about the president and his party. General Pershing stepped forward and addressed them briefly.

"We are being paid a great honor today in the visit of the president of the republic to which we have come to do our share in the fight for liberty," General Pershing said. "This day also is the anniversary of the beginning of the battle of the Marne, a day which will ever stand out in the history of the world. It is peculiarly fitting that this army should be so honored on this day, for I am sure it will give us a still greater feeling of patriotism and loyalty for the principles for which we shall fight and will instill into us a still higher spirit for the accomplishment of the task which is before us. It will make us, the advance guard of America's forces, feel still more keenly the responsibility that has been placed upon us."

General Pershing then presented Poincaré and the president stepped into the semi-circle removed his cap as he began to speak in a clear, far-reaching voice. He spoke in French, but already a majority of the officers of the expeditionary force are acquainted with the language.

"It makes me very happy," President Poincaré said, "to be able to bring today the congratulations of the French republic to this very fine army commanded by General Pershing and which I have just seen marching before me in such a magnificent manner. It filled me with emotion."

at seeing so many gallant officers and so many brave soldiers who faced the dangers of the sea to come to the soil of France to defend the common cause of the allies, and consecrate their lives, if need be, to the common cause of liberty. As President Wilson said the other day, we are all fighting for the same needs and the interests of the free United States are at stake everywhere. The allied armies are at grips with the enemy wherever it is in Flanders, before Verdun or on the Isonzo.

"Today in all of the great cities of America is being celebrated the anniversary of the birth of Lafayette. Today also I will visit the tombs of the heroes of the battle of the Marne, the men fallen in that advance guard of the armies, which now are fighting for right and civilization. Thus, our two countries are celebrating today two common anniversaries which must draw them still more closely together and inspire them in the struggle in which they are engaged."

President Poincaré concluded with the cry, "Long live the free United States!" He was warmly applauded and then the officers gave three cheers and a tiger. The cheering was taken up by the troops in the distance and continued while the president and his party moved off the field. One non-commissioned officer who stood near during the speech, was greeted by some of his men when he rejoined them with the question: "What did he say?"

"I don't know exactly," was the reply. "But I think he said give 'em hell."

That's the stuff," yelled a number of privates in chorus and the word ran all up and down the long khaki lines amid another outburst of cheering.

BOSCH'S GERMAN SYRUP.

WHAT'S THE TROUBLE
Many Statesboro People in Poor Health, without Knowing the Cause.
There are scores of people who drag out a miserable existence without realizing the cause of their suffering. Day after day they are racked with backache and headache; suffer from nervousness, dizziness, weakness, languor and depression. Perhaps the kidneys have fallen behind in their work of filtering the blood and that may be the root of the trouble. Look to your kidneys, assist them in their work—give them the help they need. You can use no more highly recommended remedy than Doan's Kidney Pills—endored by people all over the country and by your neighbors in Statesboro.

Dan E. Rigdon, 44 Bulloch St., Statesboro, says: "Whenever I feel in need of a kidney medicine, I use Doan's Kidney Pills and they never fail to remove the aches and pains in my back. At times while at work, I have to do a great deal of stooping and lifting and this is hard to do with a lame and aching back. Doan's Kidney Pills always strengthen my back and give me all right."

Price 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Rigdon had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

CHOLERA MORBUS.
This is a very painful and dangerous disease. In almost every neighborhood someone has died from it. It is a disease that can be obtained or prevented by the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy. It is a house-keeping remedy and it gives them immediate relief.

One non-commissioned officer who stood near during the speech, was greeted by some of his men when he rejoined them with the question: "What did he say?"

"I don't know exactly," was the reply. "But I think he said give 'em hell."

That's the stuff," yelled a number of privates in chorus and the word ran all up and down the long khaki lines amid another outburst of cheering.

President Poincaré concluded with the cry, "Long live the free United States!" He was warmly applauded and then the officers gave three cheers and a tiger. The cheering was taken up by the troops in the distance and continued while the president and his party moved off the field. RAILROADS OF AMERICA INCREASE FREIGHT CAPACITY

Atlanta, Sept. 10.—The railroads of America could not increase their rolling stock or other facilities to meet the unprecedented demands of heavy traffic laid upon them by the nation's entrance into the war, but they could, and have, accomplished practically the same result by a remarkable increase in the efficiency of existing facilities, as shown by figures which have just been brought to the attention of Atlanta shippers in the campaign for co-operation between shippers and railroads. These figures show that in 1916 there was an increase in business handled per freight locomotive of 27 per cent over 1915, the previous banner year; and an increase per freight car of 23 per cent.

BULLOCH TIMES AND STATESBORO NEWS

NEXT CALL WILL BE FOR WHITE MEN ONLY

MOVEMENT OF NEGROES WILL START EARLY IN OCTOBER ACCORDING TO THE PRESENT PLANS.

Atlanta, Sept. 11.—There will be no negro selectmen included in the 40 per cent of Georgia's quota, which will begin movement to Camp Gordon on the 19th of this month. Every white man in Georgia, though, who has been drawn and not exempted by the local or district board will go to camp, either on the next 40 per cent call or the final 15 per cent order. Chances are that practically every one of them in Georgia will be directed to report for service the five days beginning on the 19th of this month.

The State Military Department, through which the system of bringing the men to camp is being handled, has received the following direction by wire from General Crowder: "Send 40 per cent of your quota to mobilization camp as originally planned, beginning September 19. This installment is to be made up exclusively of white men. To compensate for local boards in which the proportion of negroes so far predominates as to prevent sending 40 per cent of their quotas, additional white men must be sent from other boards, completing 40 per cent of the first quota for the entire state on the scheduled dates of entrainment."

This means that the state of Georgia must supply 40 per cent of 18,357 men in five days beginning September 19. To make up that required installment, and meet the conditions which obtains in a number of counties, there will be necessity to make the allotment come from the state as a whole, without confinement to the county line.

The compilation will be made so that the department will not send to the camp on this call white men in any cases where there is an element of doubt that they would have to go into the service at this time, because of their number being far down the list, if the pending and undisposed of

exemption claim cases would change the status when passed upon. In making up the next 40 per cent, though it will require practically every certainly available white selectman left in the state.

The reason for making the compilation from the state as a whole, instead of on the basis of 40 per cent from each county is illustrated in the nearly 90 per cent of the remaining men drawn and passed upon are negroes. That being the case—and it is so in a good many of the counties in the lower part of the state in less degree—the difference will be made up by drawing more heavily on counties in the upper section of the state for white men in a way disregarding county lines.

Beginning on October 3, and running five days thereafter, another call will be made for 40 per cent, and on that allotment there will be sent to camp negroes only, this plan being designed to work out the entire colored contingent of selectmen, and throw them into training at one time. That leaves to be supplied by the state only the remaining 15 per cent, which will take in a few remaining white men and the remaining negroes. When the 15 per cent is directed to report for duty the order of movement will be such that the negroes will proceed to Camp Gordon on one day and the white men on a different day.

SAVANNAH REQUESTED TO ABOLISH RED LIGHT DISTRICT

Savannah, Sept. 11.—Savannah has been asked by the federal government to abolish her restricted district as a means of keeping Uncle Sam's soldiers and sailors free from contamination. Mayor Pierpont has announced this will be done and a strict repression policy carried out by the police to prevent vice of any type. The reason for the change is the city's proximity to Charleston, Fort Screven and Paris Island.

Georgia already stands in the forefront of prohibition states with a bone-dry law that is among the most drastic ever enacted, but the question now before the state is whether she will endorse the proposal to place prohibition in the federal constitution.

TWO YEARS IN BED AND ROLLING CHAIR

Mrs. Wilson Says She Had Given Up All Hope—Gains 25 Pounds on Tanlac and Is Now a Well Woman.

"For two years I spent all my time either in the hospital, in bed, or in a rolling chair, and during that time I was given up to die, and I don't guess that I would be here now if it hadn't been for Tanlac," said Mrs. E. O. Wilson. Mrs. Wilson is well known in Atlanta, her husband having been employed by the Constitution for a number of years.

"I was a great sufferer from chronic indigestion," continued Mrs. Wilson, "and don't guess anybody ever had to go through with what I did. I was very weak and nervous, and at times had those dreadful smothering sensations to the point of fainting. I had dreadful headaches, severe pains in my back and over my kidneys, and my joints ached all the time. For two years I had to live entirely on boiled milk, toast and soft-boiled eggs, and even that didn't digest well, and would sour on my stomach. I didn't know what it was to get a good night's sleep. I took one kind of medicine after another until our house was almost filled with empty bottles, but instead of improving I was getting worse all the time. Finally they took me to the hospital for treatment, and I lay there for five long months, but even that didn't make me well. It was taking nearly every cent of my husband's wages to pay doctor bills and my drug bills—our drug bill alone amounted to \$14 or \$15 a month, and one doctor bill amounted to \$108."

"It looked like everything had failed to help me, and I had about given up all hope when one day my husband brought a bottle of Tanlac home with him and asked me to take it. He said he had been reading and hearing a lot of good things about it, and didn't see any reason why it shouldn't help me. I was confined to my rolling chair when I began taking it."

"Do I look like an invalid now? I certainly don't feel like one, and I have actually gained twenty-five (25) pounds on eleven bottles of Tanlac, and feel as well as I ever did in my life. I can eat anything I want—such things as meat, turnips, hard-boiled eggs don't hurt me a particle, and I sleep as good as I did when I was a girl in my teens. I can get about as well as anybody and just the other day I walked down town, and I am running around the neighborhood calling on my friends nearly all the time now. I haven't a pain about it. I believe I am the happiest woman in Atlanta, and I think I have a right to be. I think my recovery is almost a miracle, and everybody in our neighborhood thinks the same."

Tanlac is sold in Statesboro by W. M. Ellis Co.; in Metter by Franklin Drug Co.; in Brooklet by H. G. Parrish, and by C. C. Wolfe Co., Stillson, Ga.; R. F. D. No. 1; Family Pharmacy at Pembroke, Ga.; Warnock's Drug Store, Register, Ga.; Lanier & Gay, Aaron, Ga.; Lanier Drug Co., Lanier, Ga.—Advt.

LIVER DIDN'T ACT DIGESTION WAS BAD

Says 65 Year Old Kentucky Lady, Who Tells How She Was Relieved After a Few Doses of Black-Draught.

Meadowville, Ky.—Mrs. Cynthia Higginbotham, of this town, says: "At my age, which is 65, the liver does not act so well as when young. A few years ago, my stomach was all out of fix. I was constipated, my liver didn't act. My digestion was bad, and it took so little to upset me. My appetite was gone. I was very weak."

I decided I would give Black-Draught a thorough trial as I knew it was highly recommended for this trouble. I began taking it. I felt better after a few doses. My appetite improved and I became stronger. My bowels acted naturally and the least trouble was soon righted with a few

MAKING OF WHISKEY IS LEGALLY ENDED

HUNDRED MILLION BUSHELS OF GRAIN FORMERLY DISTILLED WILL GO TO FEED WORLD.

Washington, D. C., Sept. 9.—Manufacture of whiskey ceased throughout the nation at 11 o'clock tonight when the prohibition clause of the food control act became effective. Millions of bushels of grain which would otherwise be ground up for whiskey will thus be released for food. How many millions, no one knows, for the manufacture of alcohol for beverage purposes is so closely blended with the production of alcohol for industrial and medicinal purposes that there is no way of determining the exact amount.

Of the 100,000,000 bushels of grain or thereabouts, which goes into the distilleries each year, about forty per cent, experts estimate, comes out in the form of whiskey and other distilled beverage drinks. The remainder, made into alcohol of exactly the same characteristics as that used for whiskey, eventually finds its way into perfumes, toilet waters, bay rum, medicines and to industries where denatured alcohol is used in ever increasing quantities.

Approximately 115,000,000 gallons of whiskey is produced each year by the American distilleries. Production of alcohol by the same distilleries for commercial and medicinal uses other than beverages approximates 145,000,000 gallons. The manufacture of alcohol for the latter purposes will continue as usual probably in greater volume, and few of the large distilleries, if any, will have to shut down.

The class of distilleries which will be put out of business is composed almost wholly of small plants operated by from one to half a dozen men located in California, Ohio, and New Jersey and producing brandy from grapes, apples and peaches. These produce approximately 2,000,000 gallons a year. Those in New Jersey and Ohio, officials believe, will suspend operations entirely. The California plants, it is thought, will continue to operate, in part, for the manufacture of spirits for fortifying sweet wine.

So far as officials can learn, there are few distilleries in the United States, with the exception of the fruit brandy plants, producing whiskey at the present time. Summer is the off month for whiskey production, which is confined almost wholly to the winter months, the early spring and the late fall. The cessation of active whiskey production, therefore, at this season of the year, is largely theoretical, but the operation of the law will prevent the manufacture of whiskey at the time it usually starts on a large scale, the latter part of September.

Stopping whiskey manufacture, instead of curtailing the government's revenues, will increase them for the next two years, officials believe. Coupled with the operation of the pending revenue bill, the withdrawal of whiskey from the stock already accumulated will probably treble the revenues within the next twelve months, as the present law imposes a tax of \$1.10 and the revenue bill contemplates a tax of \$3.20 a gallon. A stock of approximately 230,000,000 gallons has accumulated in the bonded warehouses and on the shelves of wholesale and liquor dealers. Approximately 100,000,000 gallons are in warehouses and upon that quantity the government will collect taxes as it is withdrawn. Few men will be thrown out of work by the operation of the law.

Distilleries now running will continue to produce alcohol for commercial purposes with very little change in their forces. Upon this class of alcohol with the exception of alcohol for denaturation the revenue bill will impose a tax of \$2.20, doubling the present income on this source.

There are approximately 700 distilleries in the country, of which more than half are small fruit brandy plants. The amount of capital invested in the latter class is not great in the aggregate. The capital invested in the big producing plants amounts high into the millions. Officials here believe that losses will be more than wiped out by the greatly

When the Skin Seems Ablaze With Itching and Burning

There's just one thing to do. If your skin seems ablaze with the itching and burning of Eczema, Psoriasis, or other skin troubles, relief can only come from treatment that goes below the surface—that reaches down to the very source of the trouble. So-called skin-diseases come from a disordered condition of the blood, and the proper treatment is through the blood.

Search far and near, and you can't find a blood remedy that approaches S. S. S. for real efficiency. It has been on the market for fifty years, during which time it has been giving uniform satisfaction for all manner of blood disorders. If you want prompt and lasting relief, you can rely upon S. S. MOVEMENT TO BRING NEGROES BACK SOUTH

Atlanta, Sept. 10.—Giles Jackson, a negro lawyer of Richmond, Va., who has the friendship of the white citizens of that city, is in Atlanta for the purpose of enlisting the support of Governor Dorsey, mayors of cities and commercial bodies in a movement to bring Southern negroes back from the north, where they have gone by thousands in the hope of high wages, social equality and other glittering promises held out to them by labor agents.

Jackson has been to Washington and secured the support of Congressman William Schley Howard, of Georgia, and Senator Martin, of Virginia, in the proposed creation of a bureau of negro economies in the department of commerce of labor. Meanwhile, he proposes to send "missionaries" among the southern negroes in northern cities to advise them to come back home. He has recently visited several northern cities and believes the time is ripe.
